Financial Aid

Sample Loan Summary

GSB Loan Forgiveness applications require verification of outstanding loan debt from lenders or services, required monthly repayment, and a history of past payments. Because our office is often asked for examples of what is needed, we have created the following sample of the loan summary information based on what we have received from various lenders. Loan summaries should be obtained from your lender or servicer for your educational loans. Most often, the on-line loan summaries are not only convenient for you to access but also the most comprehensive for our office.

Sample Loan Summary : Sally Stanford
